## Support to the 2015 International Nonthermal Processing Workshop

---

On behalf of the Organizing Committee we are happy to announce the **2015 International Nonthermal Processing Workshop** which will be held on 12–13, November 2015 in Athens, Greece. The Workshop is organized by the Institute of Food Technologists (IFT), the European Federation of Food Science & Technology (EFFOST) and the IFT Nonthermal Processing Division. The School of Chemical Engineering of National Technical University of Athens will be the local organizer and host.

The Workshop with the theme “SUSTAINABLE INNOVATION BASED ON SCIENCE AND APPLIED RESEARCH OF NONTHERMAL TECHNOLOGIES” is aiming to provide a global meeting point and forum for experts in the field of nonthermal processing of food from academia and research, food professionals, equipment manufacturers and students. The objective will be the exchange of state of the art knowledge on developments on research and applications and the enhancement of progress in the field via interaction and synergism.

Coming back to Europe after 4 years and following the high standards set by the recent successful and well attended Workshops the 2015 Workshop aims to attract an international audience from Europe and the US and all the world regions active in nonthermal research and applications.

We would like to invite you to participate actively at this event by participating in our **sponsorship programme**.

- **Present your company to an international audience**
- **Sponsor this important event either financially or with products**

You can find several attractive sponsorship options in the following list of sponsorship options and on the website [www.npdworkshop2015.org](http://www.npdworkshop2015.org).

For questions or suggestions, please contact the workshop secretariat: [npd2015@chemeng.ntua.gr](mailto:npd2015@chemeng.ntua.gr)

We look forward to welcoming you in Athens!

Yours sincerely,

Petros Taoukis

---
